CONVENIENCE TRANSLATION INTO ENGLISH OF THE INDEPENDENT AUDITOR'S REPORT
ORIGINALLY ISSUED IN TURKISH

INDEPENDENT AUDITOR'S REPORT

To the General Assembly of Destek Yatırım Bankası Anonim Şirketi

A) Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Destek Yatırım Bankası Anonim Şirketi (the "Bank") and its subsidiary (the "Parent Bank"), which comprise the statement of consolidated balance sheet as at 31 December 2024, consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and consolidated statement of profit distribution for the year then ended and the notes to the consolidated financial statements and a summary of significant accounting policies and consolidated financial statement notes.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Parent Bank as at 31 December 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the Banking Regulation and Supervision Agency ("BRSA") Accounting and Financial Reporting Legislation which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Board and circulars and interpretations published by BRSA and Turkish Financial Reporting Standards ("TFRS") for those matters not regulated by the aforementioned regulations.

Basis for Opinion

Our audit was conducted in accordance with the "Regulation on Independent Audit of Banks" published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and the Standards on Independent Auditing (the "SIA") that are part of Turkish Standards on Auditing issued by the Public Oversight Accounting and Auditing Standards Authority (the "POA"). Our responsibilities under these standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We hereby declare that we are independent of the Parent Bank in accordance with the Ethical Rules for Independent Auditors (including Independence Standards) (the "Ethical Rules") and the ethical requirements regarding independent audit in regulations issued by POA that are relevant to our audit of the consolidated financial statements. We have also fulfilled our other ethical responsibilities in accordance with the Ethical Rules and regulations. We believe that the audit evidence we have obtained during the independent audit provides a sufficient and appropriate basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment of loans

Please refer to Note VI.3 for the details of accounting policies and significant accounting estimates and assumptions used for impairment of loans.

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
<p>Impairment of loans is a key area of judgment for the management. The Parent Bank has total loans which comprise 75% of the Parent Bank's total assets in its financial as at and for the year ended 31 December 2024.</p> <p>The Parent Bank recognises provisions for impairment of loans in accordance with the "Regulation on Procedures and Principles for Classification of Loans and Provisions to be set aside" ("Regulation") which should be considered by banks that do not apply TFRS 9.</p> <p>The Parent Bank calculates general provisions and specific provisions for loans in accordance with the Regulation.</p> <p>Not fulfilling the requirements of the TFRS 9 is a potential risk for the Parent Bank. Failure in determining the loans and receivables that are impaired and not recording the adequate provision for these impaired loans is the aforementioned risk. Accordingly, impairment of loans and receivables is considered as a key audit matter.</p>	<p>As part of our audit work, the following procedures were performed:</p> <ul style="list-style-type: none"> -We assessed and tested the design, implementation and operating effectiveness of key controls applied by the Parent Bank with respect to classification of loans and determination and calculation of impairments. Our information system experts have also participated to perform these procedures. -We tested and assessed, the determination of impaired loans and the compliance of impairment provisions with the Regulation for specific provisions. -We tested and assessed, the compliance of provisions with the Regulation and the accuracy of provision calculation for general provisions. -We have assessed disclosures made within the TFRS 9 framework in the consolidated financial statements of the Parent Bank with respect to loans and receivables and related impairment provisions.

Emphasis of Matter

We draw attention to Note VII of the explanations to the consolidated financial statements where the transactions related to the risk group are explained. As at the reporting date and for the year then ended, a significant portion of the loans, marketable securities issued, derivative financial instruments, interest received on loans, interest paid on marketable securities issued and gains/losses on derivative financial instruments are attributable to related parties. However, our opinion is not modified in respect of this matter.

In accordance with the decision of the Banking Regulation and Supervision Agency on 17 February 2022 and numbered 10096, Destek Yatırım Bankası Anonim Şirketi (the "Parent Bank") has received an exemption that the provisions can be set aside within the scope of Articles 10th, 11th, 13th and 15th of the Regulation within the framework of paragraph 6 of Article 9 of the Regulation on the Classification of Loans and the Procedures and Principles to be Reserved for these Loans instead of the TFRS 9 standard that entered into force as of 1 January 2018.

Other Matter

The financial statements of the Bank as at and for the year ended 31 December 2023 were audited by another independent audit firm. The previous independent audit firm expressed an unqualified opinion on the financial statements as at and for the year ended 31 December 2023 in the independent audit report on 11 March 2024, indicating that nothing has come to their attention that causes them to believe that the financial statements do not present fairly the financial position and results of operations.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Parent Bank Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the BRSA Accounting and Reporting Regulations, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Parent Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Parent Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Parent Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Responsibilities of independent auditors in an independent audit are as follows:

Our aim is to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditor's report that includes our opinion. Reasonable assurance expressed as a result of an independent audit conducted in accordance with "Regulation on Independent Audit of Banks" published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and SIA is a high level of assurance but does not guarantee that a material misstatement will always be detected. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an independent audit conducted in accordance with "Regulation on Independent Audit of Banks" published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and SIA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement in the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Assess the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Parent Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Parent Bank ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our independent auditor's report. However, future events or conditions may cause the Parent Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence. We also communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

B) Report on Other Legal and Regulatory Requirements

1) No matter has come to our attention that is significant according to subparagraph 4 of Article 402 of Turkish Commercial Code ("TCC") No. 6102 and that causes us to believe that the Parent Bank's bookkeeping activities concerning the period from 1 January to 31 December 2024 period are not in compliance with the TCC and provisions of the Parent Bank's articles of association related to financial reporting.

2) In accordance with subparagraph 4 of Article 402 of the TCC, the Board of Directors submitted the necessary explanations to us and provided the documents required within the context of our audit.

The engagement partner who supervised and concluded this independent auditor's report is **METİN ETKİN**.

YEAR ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

SECTION ONE

General Information

I. History of the Parent Bank including its incorporation date, initial legal status and amendments to legal status

Destek Yatırım Bankası Anonim Şirketi ("Destek Yatırım Bankası" or the "Parent Bank") was established in accordance with the decision of Banking Regulation and Supervision Board on 4 February 2021 and numbered 9412, and the decision was published in the Official Gazette on 12 July 2021 with the initial authorized share capital amounting to TL 300.000.

The Parent Bank carried out its operations to obtain an operating permit from the Banking Regulation and Supervision Agency in accordance with the provisions of the legislation in force following the establishment and registration procedures. Accordingly, the Parent Bank was authorised to start operations with the decision of the Banking Regulation and Supervision Board on 6 January 2022 and numbered 10024. The relevant authorisation was published in the Official Gazette on 8 January 2022 and numbered 31713. The Parent Bank started its operations on 25 February 2022 after the authorisation granted by the Banking Regulation and Supervision Agency ("BRSA").

The Parent Bank is considered as "Development and Investment Bank" according to the classification in the Banking Law No. 5411 and the Parent Bank has no authority to have bank deposits and relevant transactions.

II. Explanation about the Parent Bank's capital structure, shareholders holding directly or indirectly, collectively or individually, the management and controlling power and changes in current year, if any and explanations on the controlling group of the Parent Bank

As of 31 December 2024, the current paid-in share capital of Destek Yatırım Bankası is amounting to TL 600 million (31 December 2023: TL 350 million). The paid-in share capital is divided into 600 million outstanding shares each with a nominal amount of TL 1.

As of 31 December 2024 and 2023, the principal shareholders and their respective shareholding rates in Destek Yatırım Bankası are as follows:

Shareholders	Amount	Share (%)	Paid-in share capital	Unpaid share capital
Destek Finans Faktoring A.Ş.	599.999	99.99996	599.999.996	-
Altunç Kumova	0,001	0.00001	1	-
Özgür Akayoğlu	0,001	0.00001	1	-
Kerim Tosun	0,001	0.00001	1	-
Azem Can Kumova	0,001	0.00001	1	-
Total share capital	600.000	100.00	600.000.000	-

CONVENIENCE TRANSLATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

DESTEK YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

SECTION THREE

Explanations on Accounting Policies

I. Basis of presentation

1. Preparation of the consolidated financial statements and the accompanying notes in accordance with Turkish Accounting Standards and the Communiqué on Principles and Procedures on the Accounting Practice and Documentation of Banks

The consolidated financial statements are prepared within the scope of the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" ("Regulation") related with Banking Law numbered 5411 published in the Official Gazette No. 26333 dated 1 November 2006 and other regulations related to reporting principles on accounting records of Banks published by Banking Regulation and Supervision Agency (the "BRSA") and circulars and interpretations published by BRSA (together referred as BRSA Accounting and Reporting Legislation) and in case where a specific regulation is not made by BRSA, Turkish Financial Reporting Standards ("TFRS") and (referred as "Turkish Accounting and Financial Reporting Regulations" or "Reporting Standards") put into effect by Public Oversight Accounting and Auditing Standards Authority (the "POA").

The amounts in the consolidated financial statements and relevant notes expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.

The accompanying consolidated financial statements have been prepared in accordance with the "Communiqué amending the Communiqué on the Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" published in the Official Gazette dated 1 February 2019 numbered 30673.

The accompanying consolidated financial statements are prepared in accordance with the historical cost basis except for the financial assets and liabilities at fair value.

Within the framework of the Regulation on the Procedures and Principles Regarding the Classification of Loans and the Provisions to be Set aside with the decision of the Banking Regulation and Supervision Board dated 21 December 2017 and numbered 7650, the provisions of the Parent Bank will be replaced by the 10th, 11th, 13th and 15th of the regulation instead of TFRS 9 considering the authorisation obtained from BRSA on 21 February 2022. In this context, the Parent Bank did not apply the provisions of TFRS 9 effective as of 1 January 2018 regarding the measurement of provisions. In accordance with the authorisation received from the BRSA, the Parent Bank calculates its provisions not with the expected credit losses under TFRS 9, but within the scope of the 10th, 11th, 13th and 15th articles of the regulation until indicated otherwise.

As of 31 December 2024, the consolidated balance sheet and off-balance sheet commitments are presented comparatively with the consolidated financial statements as at and for the year ended 31 December 2023. The consolidated statement of profit or loss, profit or loss and other comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and profit distribution for the year ended on 31 December 2024 are presented comparatively with the consolidated financial statements for the year ended on 31 December 2023.

2. Accounting policies and valuation principles used in the preparation of the consolidated financial statements

Accounting policies and valuation principles adopted when preparing the consolidated financial statements are in accordance with the legislation, communiqué, explanation and circular released by BRSA concerning accounting and financial reporting, and, for matters which are not regulated by the foregoing, with the provisions of TAS/TFRS (together "BRSA Accounting and Financial Reporting Legislation").

The amendments and any changes in transition to TAS/TFRS, do not have a material influence on the Parent Bank's accounting policies, financial position and performance, effective from 1 January 2023. The Parent Bank management estimated that the amendments to TAS and TFRS, which have been published but not entered into force as of the date of the consolidated financial statements, will not have a material influence on the Parent Bank's accounting policies, financial position and performance.

DESTEK YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Explanations on Accounting Policies (continued)

I. Basis of presentation (continued)

2. Accounting policies and valuation principles used in the preparation of the consolidated financial statements (continued)

In accordance with the announcement disclosed by the Public Oversight, Accounting, and Auditing Standards Authority (the "POA") on 23 November 2023, it was decided that entities applying TFRS must implement the "TAS 29 Financial Reporting in Hyperinflationary Economies" in their financial statements starting from the 31 December 2023 annual reporting period. In addition, entities authorized to regulate and supervise within their respective nature of business were granted the flexibility to set different transition dates for the application of TAS 29 provisions. Within this scope, under the decision of the Banking Regulation and Supervision Agency (the "BRSA") on 12 December 2023, and numbered 10744, banks, as well as financial leasing, factoring, financing, savings financing, and asset management companies, are exempted from applying the inflation adjustments required by TAS 29 in their financial statements on 31 December 2023. Furthermore, in accordance with the decision dated 11 January 2024, and numbered 10825, these entities are required to implement inflation accounting commencing from 1 January 2025. Accordingly, the Parent Bank has not applied the inflation accounting required under TAS 29 in the accompanying consolidated financial statements as at and for the year ended 31 December 2024. Accounting policies and valuation principles are disclosed in Notes II and XXIII.

II. Explanations on strategy of using financial instruments and foreign currency transactions

1. The Parent Bank's strategy on financial instruments

The Parent Bank's core business covers all banking services and investment banking activities, excluding debt financing, foreign trade finance, structured finance, treasury products and services, and accepting deposits, offered to Corporate and Commercial Banking customers.

The Bank started its operations on 25 February 2022 and approximately 17% of the Parent Bank's resources consist of equity as of the balance sheet date. The Bank's main objective is to diversify its funding sources over time. In line with this objective, both expanding the investor base and diversifying the borrowing markets have been prioritised. The domestic bond/bill market is targeted to be the primary funding source of the Bank in the first months. In addition, Borsa Istanbul Debt Securities Market, Central Bank of the Republic of Türkiye (the "CBRT") Open Market Operations Market, Takasbank Money Market and Interbank repo/deposit market will be used as funding sources. Efforts are being made to utilise funding opportunities especially from foreign banks with relatively long maturities. Swap transactions will be used to manage the liquidity of different currencies.

As of the balance sheet date, the share of loans granted in the Parent Bank's assets is 75%, and there is a liquid balance sheet structure in which the Parent Bank's resources are used in short and medium-term financial instruments.

2. The Bank's explanations on foreign currency transactions

The Parent Bank adopted an asset-liability balance management strategy aimed at adverse the effects of risks and increasing profits by balancing the resources and assets it uses in terms of risk. The main goal of asset-liability management is to keep the Parent Bank's liquidity risk, exchange rate risk and credit risk within certain limits; to increase profitability and strengthen the Parent Bank's equity and capital.

Foreign currency denominated monetary assets and liabilities are translated with the exchange rates announced by the CBRT prevailing at the balance sheet date. Gains and losses arising from such valuations are recognised in the statement of profit or loss under the account of "Foreign exchange gains or losses", except for valuation differences arising from foreign currency participations, subsidiaries and foreign currency non-performing loans.

III. Explanations on forward and option contracts and derivative instruments

Derivative transactions are classified as trading and are carried at their fair value in the consolidated financial statements.

Liabilities and receivables arising from derivatives are recognised in the off-balance sheet accounts based on the contractual amounts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Explanations on Accounting Policies (continued)

III. Explanations on forward and option contracts and derivative instruments (continued)

Derivative transactions are carried at fair value in the periods following their recognition. In accordance with their classification, derivative transactions are presented in "Derivative Financial Assets at Fair Value Through Profit or Loss" or "Derivative Financial Assets at Fair Value Through Other Comprehensive Income" if their fair value is positive. On the other hand, derivative transactions are presented in "Derivative Financial Liabilities at Fair Value Through Profit or Loss" or "Derivative Financial Liabilities at Fair Value Through Other Comprehensive Income" if their fair value is negative. Differences in the fair value of derivative transactions at fair value of derivative financial assets are recognised in profit or loss are recognised under profit or loss from derivative financial transactions in the operating profit/loss in the statement of profit or loss.

The Parent Bank has no embedded derivative products determined by separation from the main contract or derivative products for hedging purposes.

As of 31 December 2024, the Parent Bank has derivative financial assets amounting to TL 289.903 (31 December 2023: TL 181.431) and derivative financial liabilities amounting to TL 45.242 classified as "Derivative financial assets at fair value through profit or loss" (31 December 2023: TL 50.685).

IV. Explanations on interest income and expense

Interest income and expenses are recognized in the statement of profit or loss on an accrual basis by using the effective interest method periodically. The Parent Bank amortizes the fees and transaction costs included in the calculation of the effective profit rate over the estimated useful life of the financial instrument when applying the internal return.

V. Explanations on fee and commission income and expense

Revenue arising from banking operations are recognised as income in the period they are collected.

Loan fees and commission expenses paid to other institutions and organizations regarding financial liabilities and including transaction costs are considered as a part of the interest expense of the relevant loan.

Fees and commission income/expenses collected/paid regarding any forward transaction are recognised on an accrual basis.

Revenue provided through contracts or through consultancy and project services related to transactions such as asset acquisitions, partnership purchases or sale for a third real or legal person, are recognised as income during the completion of the transactions, the provision of the service or when they are collected, depending on their nature.

VI. Explanations on financial assets

The Parent Bank categorizes its financial assets as "Fair Value Through Profit or Loss", "Fair Value Through Other Comprehensive Income" or "Measured at Amortized Cost". Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments Part 3 Issued for classification and measurement of the financial instruments published in the Official Gazette No. 29953 dated 19 January 2017 by the Public Oversight Accounting and Auditing Standards Authority ("POA"). Financial assets are measured at fair value at initial recognition in the financial statements. During the initial recognition of financial assets other than "Financial Assets at Fair Value Through Profit or Loss", transaction costs are added to fair value or deducted from fair value.

According to TFRS 9 requirements, classification and measurement of financial assets will depend on the business model within which financial assets are managed and their contractual cash flow characteristics whether the cash flows represent solely payments of principal and interest.

DESTEK YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Explanations on Accounting Policies (continued)

VI. Explanations on financial assets (continued)

1. Financial assets at the fair value through profit or loss

"Financial assets at fair value through profit or loss" are financial assets other than the ones that are managed with business model that aims to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from short-term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement. As of 31 December 2024 and 2023, the Parent Bank has no financial assets at fair value through profit or loss.

2. Financial assets at the fair value through other comprehensive income

Financial assets are classified as financial assets at fair value through other comprehensive income where the business models aim to hold financial assets in order to collect the contractual cash flows and selling assets and the terms of financial asset give rise to cash flows that are solely payments of principal of interest at certain dates.

Financial assets at fair value through other comprehensive income are subsequently measured at their fair value. The interest income of financial assets at fair value through other comprehensive income that are calculated by effective interest rate method and dividend income from equity instruments are reflected in the statement of profit or loss. "Unrealized profits and losses", the difference between the fair value of debt instruments at fair value through other comprehensive income and their amortized cost, are not reflected in the statement of profit or loss for the period until the corresponding financial asset is collected, sold, disposed of or weakened and is followed in the "Other Comprehensive Income or Expenses to be Reclassified to Profit or Loss" account under equity. Accumulated fair value differences under equity are reflected to the statement of profit or loss when such securities are collected or disposed.

Securities representing shares in capital classified as financial assets at fair value through other comprehensive income are carried at their fair value.

The "Financial Assets at Fair Value through Other Comprehensive Income" portfolio includes fixed-rate treasury bills, government bonds and Eurobonds issued by the Turkish Treasury, as well as CPI indexed government bonds. These CPI indexed securities are carried and accounted based on real coupon rates and the reference inflation index on the date of issuance and the reference inflation index on the valuation date. The reference indices used in calculating the actual coupon payment amounts of these assets are created according to the CPI of two months ago.

As of 31 December 2024, government debt securities classified under "Financial Assets at Fair Value through Other Comprehensive Income" is amounting to TL 1.118.155 (31 December 2023: TL 803.416) and the Parent Bank has other financial assets amounting to TL 39.903 in the accompanying consolidated financial statements (31 December 2023: TL 1.931).

3. Financial assets at amortised cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost. Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs, which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in statement of profit or loss.

DESTEK YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Explanations on Accounting Policies (continued)

VI. Explanations on financial assets (continued)

3. Financial assets at amortised cost (continued)

Financial assets at amortized cost are initially recognised by adding transaction costs to their acquisition costs, which reflect their fair values, and following their recognised, they are measured at their "Amortized cost" using the "Effective interest (internal rate of return) method". Interest income related to financial assets measured at amortized cost is reflected in the consolidated statement of profit or loss. The Parent Bank's financial assets measured at amortized cost consist of loans. As of 31 December 2024, the Parent Bank has loans amounting to TL 12.132.895 (31 December 2023: TL 2.687.410).

Loans

Loans are financial assets that have fixed or determinable payments terms and are not quoted in an active market. Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the "Effective Interest Rate (internal rate of return) Method". Transaction fees, dues and other expenses paid for loan guarantees are recognized under the profit and loss accounts.

The Bank management reviews the loan portfolio at regular intervals and in case of doubts that the loans granted will not be collected. The Bank applies the Procedures and Principles Regarding the Classification of Loans and Provisions to be Set Aside", which was published in the Official Gazette No. 29750 dated 22 September 2016 and amended by the regulation published in the Official Gazette No. 30569 dated 18 October 2018, for loans that are considered in this matter. Accordingly, the Bank realises classifications within the framework of the principles set out in the "Regulation on Provisions" ("Regulation on Provisions").

Within the framework of the Regulation on the Procedures and Principles Regarding the Classification of Loans and the Provisions to be Set aside with the decision of the Banking Regulation and Supervision Board dated 21 December 2017 and numbered 7650, the provisions of the Bank will be replaced by the 10th, 11th, 13th and 15th of the regulation instead of TFRS 9 considering the authorisation obtained from BRSA on 21 February 2022. In this context, the Bank did not apply the provisions of TFRS 9 effective as of 1 January 2018 regarding the measurement of provisions. In accordance with the authorisation received from the BRSA, the Bank calculates its provisions not with the expected credit losses under TFRS 9, but within the scope of the 10th, 11th, 13th and 15th articles of the regulation until indicated otherwise.

VII. Explanations on offsetting financial assets

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

VIII. Explanations on sales and repurchase agreements and securities lending transactions

Securities subject to repurchase agreements ("Repo") are classified as "Financial assets at fair value through other comprehensive income" and "at amortised cost" in the balance sheet according to the investment purposes and measured according to the portfolio of the Bank to which they belong. Funds obtained under repurchase agreements are accounted under "Funds provided under repurchase agreements" in liability accounts and differences between the sale and repurchase prices determined by these repurchase agreements are accrued evenly over the life of the repurchase agreement using the "Effective interest (internal return) method". Funds given against securities purchased under agreements to resell ("Reverse repos") are accounted under "Receivables from money market" in the balance sheet. The difference between the purchase and resell price determined by these repurchase agreements is accrued evenly over the life of repurchase agreements using the "Effective interest rate method".

DESTEK YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Explanations on Accounting Policies (continued)

IX. Explanations on non-current assets held for sale and related to discontinued operations and explanations on liabilities related with these assets

According to "TFRS 5 Non-Current Assets Held for Sale and Discontinued Operations" which satisfy to be classified as held for sale are measured by the lower of carrying value less cost to sell and these assets are not amortised; and are separately presented in the financial statements. For an asset (or else the group of assets) to be classified as held for sale; the asset should be ready for immediate sale in frequently seen and accustomed terms and the probability of sale should be high. For the probability of sale to be high, appropriate level of management should have made a plan for the sale of the asset (or else the group of assets) and a program should have been initiated in order to determine buyers as well as complete the plan. Also, the asset or else the group of assets) shall be actively marketed in conformity with its fair value. On the other hand, the sale is expected to be journalized as a completed sale within one year after the classification date; and the necessary transactions and procedures to complete the plan should demonstrate the fact that the possibility of making significant changes or cancelling the plan is low. Certain events and conditions may extend the duration of completion of sale to more than one year.

If such delay arises from any events and conditions beyond the control of the entity and if there is sufficient evidence that has an ongoing disposal plan for these assets, such assets (or else the group of assets) are continued to be classified as assets held for sale (or else the group of assets). A discontinued operation is part of bank as held for sale or disposed. The results of discontinued operations are presented in the explanations on interest income and expense in the consolidated statement of profit or loss. As of 31 December 2024 and 2023, the Parent Bank has no discontinued operations at the end of the reporting period.

As of 31 December 2024 and 2023, the Parent Bank has no non-current assets held for sale.

A discontinued operation is a division of a bank that is classified as being disposed of or held for sale. The results of discontinued operations are presented separately in the statement of profit or loss.

X. Explanations on goodwill and other intangible assets

As of 31 December 2024 and 2023, the Parent Bank has no goodwill. Other intangible assets consist of computer software and licenses. Intangible assets are amortized according to the straight-line basis, considering their economic useful lives in the consolidated financial statements. Depreciation is provided for intangible assets over 3-15 years.

DESTEK YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Explanations on Accounting Policies (continued)

XI. Explanations on property, plant and equipment

Property, plant and equipment are depreciated using the straight-line basis. The useful lives of property, plant and equipment are determined by the Parent Bank management and are depreciated using rates determined according to their useful lives. Property, plant and equipment are depreciated over 3-10 years using the straight-line basis.

Depreciation is allocated using the straight-line basis over the shorter of the operating lease periods for leasehold improvements or the useful life leasehold improvements.

For assets that have been recognised for less than one accounting period as of the balance sheet date, depreciation has been allocated in the amount calculated by proportioning the depreciation amount estimated a year to the period the asset recognised under assets. Gains or losses on disposals of property, plant and equipment are determined by comparing proceeds with their net carrying amounts. Repairs and maintenance expenses are charged to the income statements during the period in which they are incurred. The cost of major renovations is included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Bank. Major renovations are depreciated over the remaining useful life of the related asset. The Parent Bank has no purchase commitment regarding its property, plant and equipment. The Parent Bank has no pledges and mortgages on its property, plant and equipment.

Property, plant and equipment	Economic useful lives
Cahs on hand	50 years
Office machinery and suppliers	4-15 years
Leasehold improvements	5 years
Other securities	3-10 years
Motor vehicles	2-5 years

XII. Explanations on leases

The Parent Bank assesses whether the contract has the quality of a lease or whether the lease includes the transaction at the beginning of a contract in the application of TFRS 16. In case the contract is transferred for a certain period of time to control the use of the asset defined for a price, it is either leased or includes a lease. The Bank reflects the existence of a right of use and a lease liability to the financial statements at the effective date of the lease.

After the commencement date, the Parent Bank measures the right-of-use asset applying a cost model. To apply the cost model, the Bank measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses; and adjusted for any remeasurement of the lease liability. The Bank applies TAS 36 "Impairment of Assets" to determine whether the real estates considered as right of-use assets are impaired and to account for any impairment loss identified.

With the "TFRS 16 Leases" standard effective from 1 January 2019, the difference between operating leases and finance leases has been eliminated and the lease transactions have been disclosed under the "Lease liabilities" as liability by lessees. The lease transactions were started to be recognised under "Property, plant and equipment" as an asset and under "Lease liabilities" as a liability.

TFRS 16 Leases standard eliminates the dual accounting model currently applied for lessees through recognizing finance leases in the balance sheet whereas not recognizing operational lease. Instead, it is set forth a single model similar to the accounting of finance leases (on balance sheet). For lessors, the accounting stays almost the same.

DESTEK YATIRIM BANKASI ANONİM ŞİRKETİ

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024**

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Explanations on Accounting Policies (continued)

Right of use assets

The Bank recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The right use includes the presence of:

Explanations on Accounting Policies (continued)

- a) The initial measurement amount of the lease obligation,
- b) the amount obtained by deducting all the rental incentives received from all lease payments made at or before the beginning of the lease;
- c) all initial direct costs incurred by the Bank

When applying the cost method, the existence of the right to use:

- a) accumulated depreciation and accumulated impairment losses are deducted and
- b) Measures the restatement of the lease obligation at the restated cost. The Bank applies the provisions of depreciation regulated under the TAS 16 "Property, plant and equipment", while depreciating the rights of use assets.

Lease liability

The Bank measures the lease obligation at the present value of the unpaid lease payments on the date that the lease commences. Lease payments included in the measurement of the lease obligation on the date that the lease actually commences, consists of the following payments to be made for the right of use of the underlying asset during the lease period and not paid on the date the lease actually starts.

After the effective date of the lease, the Bank measures the lease liability as follows:

- Increase the book value to reflect the interest on the lease liability
- Reduces the book value to reflect the lease payments made and
- The book value is measured to reflect reassessments and restructuring, or reflect to fixed lease payments as of revised nature.

The interest on the lease liability for each period in the lease period is the amount calculated by applying a fixed periodic interest rate to the remaining balance of the lease liability.

XIII. Explanations on provisions, contingent liabilities and contingent assets

Provisions and contingent liabilities are accounted in accordance with the Turkish Accounting Standard "Contingent Liabilities and Contingent Assets" ("TAS 37"). Provisions are recognized when the Parent Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. A provision for contingent liabilities arising from past events should be recognized in the same period of occurrence in accordance with the periodicity principle. A liability is recognized as a contingent liability where a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of more than one events not wholly within the control of the Parent Bank; or a present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability and disclosed in the notes to the consolidated financial statements.

DESTEK YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Explanations on Accounting Policies (continued)

XIV. Explanations on obligations related to employee benefits

Under the Turkish Labor Law, the Parent Bank operating in Türkiye are required to pay a specific amount to the employees who have retired or whose employment is terminated other than the reasons specified in the Turkish Labor Law. According to the related regulation, the Parent Bank is obliged to pay termination benefits for employees who retire, quit for their military service obligations, who have been dismissed as defined in the related regulation or who have completed at least one year of service. The reserve for employment termination benefits represents the present value of the estimated total reserve for the future probable obligation of the Parent Bank arising from this liability. In accordance with TAS 19, actuarial gains and losses are recognized in equity. The Parent Bank and its employees are not a member of foundations, funds or similar organizations.

XV. Explanations on taxation

1. Corporate tax

As of 31 December 2024, the current effective corporate tax rate is 30%.

Pursuant to Article 25 of Law No. 7394 published in the Official Gazette dated 15 April 2022 and numbered 31810; Corporate tax rate has been determined as 25% for banks, companies within the scope of Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies is determined as 25%, and this rate will be effective as of 1 July 2022. It came into force to start with the declarations that must be submitted and to be applied to corporate earnings for accounting periods starting from 1 January 2022.

In accordance with Article 21 of the Law No. 7456 published in the Official Gazette dated 15 July 2023 and numbered 32249, starting from the declarations that must be submitted as of 1/10/2023; The corporate tax rate to be applied to the earnings of corporations in 2023 and the following taxation periods has been increased from 25% to 30% for banks and other institutions mentioned in the law. As of 31 December 2024, the corporate tax rate has been applied as 30% in the consolidated financial statements.

The corporate tax rate is applied to the tax base to be calculated as a result of the addition of the nondeductible expenses in accordance with the tax laws to the commercial income of the corporations and deducting the exceptions (such as the participation earnings exemption) and deductions in the tax laws. No further tax is paid if the profit is not distributed.

Dividends paid to non-resident corporations, which have a place of business or permanent attorney in Türkiye or to resident corporations are not subject to withholding tax. While dividends paid to individuals and corporations were subject to withholding tax at the rate of 15%, this rate has been changed to 10% with the Presidential Decision published in the Official Gazette dated 22 December 2021 and No. 31697. Addition of profit to capital is not considered as profit distribution and withholding tax is not applied.

Corporations calculate advance tax quarterly on their financial profits at the corporate tax rate valid for that year and declare and pay until the 17th day of the second month following that period. Advance tax paid by corporations for the current period is offset against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be used to offset any other financial liabilities to the government.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

DESTEK YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Explanations on Accounting Policies (continued)

Corporations which have been fallen to legal proceedings because of owe to the bank or Savings Deposit Insurance Funds, and their warranters' real estates, participation stocks, founding bonds, redeemed shares, options to call of mortgagors' revenues that used for against debts or transferring to SDIF, 50% of the profits arising from the sale of the said assets obtained by the banks in this way, and 75% of the profits arising from the sale of others are exempted from corporation tax. Previously, corporate taxpayers were allowed to exclude 50% of such capital gains from their corporate tax base, subject to certain conditions. With the new law, capital gains from sale of immovables will be fully taxable. Immovables which have been acquired before the effective date of the new law (15 July 2023), however the exemption rate for capital gains from such immovables will be 25%.

Tax returns are required to be filled and delivered to the related tax office until the end of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month. Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based and may issue re-assessments based on their findings. As of the end of the 2021 calendar year, the conditions sought for inflation adjustment in the calculation of corporate tax have been fulfilled, within the framework of the repeated provision of Article 298/A of the Tax Procedure Law. However, with the Law No. 7352 on the Amendment of the Tax Procedure Law and the Corporate Tax Law, published in the Official Gazette dated 29 January 2022 and numbered 31734, the temporary article 33 was added to the Tax Procedure Law No. 213, including the provisional tax periods. Financial statements will not be subject to inflation adjustment for the 2021 and 2022 accounting periods (for those designated as a special accounting period, as of the accounting periods ending in 2022 and 2023) and the provisional tax periods for the 2023 accounting period, regardless of whether the conditions for the repetitive inflation adjustment within the scope of Article 298 are met.

1. Corporate tax (continued)

It has been enacted that the financial statements dated 31 December 2023 will be subject to inflation adjustment regardless of whether the conditions for the inflation adjustment are met, and the profit/loss differences arising from the inflation adjustment to be made will be shown in the previous years' profit/loss account. According to the 17th article of the Law No. 7491 on Amendments to Certain Laws and Decree Laws published in the Official Gazette No. 32413 dated 28 December 2023, banks are companies within the scope of the Financial Leasing, Factoring, Financing and Savings Finance Companies Law No. 6361 dated 21 November 2012. Profit/loss differences arising from the inflation adjustment to be made by payment and electronic money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies in the 2024 and 2025 accounting periods, including the provisional tax periods. It is regulated that the resulting profits or losses will not be taken into account in determining the corporate tax base.

Income withholding tax

There is a withholding tax liability on dividend distributions, and this withholding tax liability is accrued in the period in which the dividend payment is made. Dividend payments other than those made to non-resident taxpayer institutions that generate income through a workplace or permanent representative in Türkiye and to institutions resident in Türkiye are subject to 15% withholding tax. In the application of withholding tax rates for profit distributions made to non-resident taxpayer institutions and natural persons, the withholding tax rates included in the relevant Double Taxation Avoidance Agreements are also taken into consideration. Addition of retained earnings to capital is not considered profit distribution, therefore it is not subject to withholding tax.

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Explanations on Accounting Policies (continued)

XV. Explanations on taxation (continued)

Transfer pricing

Transfer pricing is discussed under the title of "disguised profit distribution" through transfer pricing of Article 13 of the Corporate Tax Law. The details of the implementation in the "General Notification on Disguised Profit Distribution Through Transfer Pricing" published on November 18, 2007, have been identified.

If the taxpayers are involved in the purchase, sale or purchase of goods, services or goods that are not carried out within the scope of the precedent of comparability with the parties concerned, then the relevant profits will be considered to be implicitly distributed through transfer pricing. Disguised profit distributions done with this type of transfer pricing will not be deductible from the tax base in terms of corporate tax.

2. Deferred tax

The Parent Bank calculates and reflects deferred tax in accordance with the provisions of "Income Taxes" ("TAS 12") for taxable temporary differences that arise between the book value of an asset or liability and its tax basis determined in accordance with the tax legislation. Deferred tax liabilities are recognized for all resulting temporary differences whereas deferred tax assets resulting from temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deferred tax assets can be utilized. As of 31 December 2024, the tax rate used in the calculation of deferred tax assets and liabilities is 30% on temporary differences expected to realise (31 December 2023: 30%). Deferred tax liabilities are calculated for all taxable temporary differences, while deferred tax assets arising from deductible temporary differences are recognized only if it is highly probable that future taxable profits will be available to utilize these differences.

Explanations on Accounting Policies (continued)

XVI. Explanations on borrowings

Except for liabilities related to financial instruments at fair value, financial liabilities are recognised at their acquisition costs, including transaction costs, and carried at their discounted value calculated using the "effective interest rate" in the subsequent periods. The Parent Bank did not issued convertible bonds during the annual reporting period.

As of 31 December 2024, the Parent Bank has issued securities amounting to TL 4.571.808 (31 December 2023: TL 1.837.769).

In the case of assets that require significant time to be ready for use or sale (qualifying assets), borrowing costs directly associated with their purchase, construction or production are included in the cost of the asset until the relevant asset is made ready for use or sale. The amount of borrowing costs that can be capitalized for funds borrowed for the purpose of acquiring a qualifying asset in a period is the amount determined by deducting the income obtained from temporary investments of these funds from the total borrowing costs incurred for these assets in the relevant period. All other borrowing costs recognised in the statement of profit or loss in the period which they incurred. The Parent Bank satisfies its resource requirements by obtaining loans from domestic and foreign institutions, borrowing from money markets or issuing securities in domestic and foreign markets, when deemed necessary.

SECTION FOUR

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE
PARENT BANK

I. Explanations on equity

Equity and capital adequacy ratio were calculated within the framework of "Regulation on Banks' Equity" and "Regulation on Measurement and Evaluation of Capital Adequacy of Banks".

As of 31 December 2024, the Parent Bank's total equity is calculated as TL 2.774.453 and capital adequacy ratio is 25.41%. The capital adequacy standard ratio of the Parent Bank is above the minimum ratio determined by the relevant legislation.

a) Information on equity

Current period	Amount	Amount before 1 January 2024 ⁽¹⁾
COMMON EQUITY TIER 1 CAPITAL		
Paid-in share capital following all debts in terms of claim in liquidation of the Bank	600.000	
Share premiums		
Retained earnings	51.259	
Gains recognized in equity as per TAS	-	
Profit	2.150.336	
Profit for the period	1.176.408	
Prior period profit	973.928	
Shares acquired free of charge from subsidiaries, associates and jointly controlled partnerships and cannot be recognised within profit for the period	-	
Common Equity Tier 1 Capital Before Deductions	2.801.595	
Deductions from Common Equity Tier 1 Capital		
Common Equity as per the 1st clause of Provisional Article 9 of the Regulation on the Equity of Banks	-	
The sum of the net loss for the current period and the previous years which could not be absorbed by the retained earnings and losses recognised in equity in accordance with TAS	7.878	
Improvement costs for operating leasing	905	
Goodwill (net of related tax liability)	-	
Other intangible assets other than mortgage-servicing rights (net of related tax liability)	128.342	
Deferred tax assets that rely on future profitability excluding those arising from temporary differences (net of related tax liability)	-	
Cash-flow hedge reserve	-	
Shortfall of provisions to expected losses	-	
Securitisation gain on sale	-	
Gains and losses due to changes in own credit risk on fair valued liabilities	-	
Defined-benefit pension fund net assets	-	
Investments in own shares	-	
Credits extended contrary to the fourth paragraph of Articles 56 of the Banking Law	-	
Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions, where the bank does not own more than 10% of the issued share capital (amount above 10% threshold)	-	
Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions, where the bank owns more than 10% of the issued share capital (amount above 10% threshold)	-	
Mortgage servicing rights (amount above 10% threshold)	-	
Deferred tax assets arising from temporary differences (amount above 10% threshold, net of related tax liability)	-	
Amount exceeding the 15% threshold (-) of the common equity Tier 1 in accordance with the second paragraph of the provisional article 2 in the regulation regarding the Banks' Equity	-	
The amount above threshold for the investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions, where the bank owns more than 10% of the issued share capital	-

Amounts Excess the Limits of Additional Tier II Capital subjected to temporary Article 4	-

(1) Amounts in this column represents the amounts of items that are subject to transition provisions

The difference between Total Capital and Equity in the consolidated balance sheet mainly arises from expected credit loss provisions arising from loans classified under stage I and stage II and subordinated loans. In the calculation of Total Capital, up to 1.25% of expected credit loss from stage 1 and stage 2 over the credit risk amount and subordinated loans with nominal amounts are taken into consideration as Tier II Capital. Additionally, the losses reflected to equity which is subject to deduction from TIER I capital are determined by excluding the losses from cash flow hedging. On the other hand, in the calculation of the Total Capital, improvement costs for operating leases followed under property, plant and equipment in the balance sheet, intangible assets and related deferred tax liabilities, other items defined by the regulator are taken into consideration as amounts deducted from Total Capital.

In accordance with the scope of the regulation issued by the Banking Regulation and Supervision Agency, the amount subject to credit risk is calculated with the Central Bank foreign exchange buying rates as of 26 June 2023 and the net valuation differences of the securities in the securities portfolio whose fair value difference is reflected in other comprehensive income are negative. In this case, these differences are not taken into account in the equity amount to be used for the capital adequacy ratio. As of 31 December 2024, the CBRT foreign exchange buying rate on 26 June 2023 was used in the capital adequacy ratio calculations and 0% risk weight was applied to receivables from the Central Bank of the Republic of Türkiye (the "CBRT").

The Parent Bank sets credit limits for counterparties in order to achieve risk limitation in lending transactions which are subject to credit risk and does not allocate loans above these limits. While determining these limits, the financial structure and debt payment capacities of the customers are taken into consideration as well as the credit policies and strategies determined by the Parent Bank. The Parent Bank includes the credit risks incurred due to all kinds of transactions specified in the Banking Law No. 5411 and within the scope of credit. Credit risks incurred due to new products and services planned to be offered by the Parent Bank are also evaluated in this context.

PARENT BANK (continued)

II. Explanations on credit risk

Calculation of the amount subject to credit risk in the Parent Bank is realised according to the "Standard Approach" within the framework of the "Regulation on Measurement and Assessment of Capital Adequacy of Banks".

In order to ensure effectiveness in risk management, information is provided at regular intervals on the basis of informing the senior management about the developments in credit risk management and the results of the analyses and studies carried out accordingly regarding effectiveness in risk management. When assuming credit risk, actions are taken in compliance with the limits set forth by the Banking Law. The Bank has internal "risk limits" established in accordance with its portfolio structure and risk appetite, and adherence to these limits is monitored by designated control officers at three levels of oversight.

The Parent Bank determined policies regarding credit risk management and realises its "Credit Policy" on the basis of its risk management. Regarding the Parent Bank's risk management policy, the Parent Bank's credit standards regarding the loans to be allocated to customers to be included in the corporate loan portfolio have been determined by adhering to the legal legislation and banking ethical rules. The general principles and procedures of the loan have been regulated, and the duties, authorities, responsibilities and obligations regarding the loan process have been determined. The detailed analysis of the credit allocation process is included in the "Credit Allocation and Credit Monitoring Procedure".

The Parent Bank allocates its existing loans to Article numbered II "Communiqué on Methods and Principles for Determining the Nature of Loans and Other Receivables and Allocation of Provisions" published by BRSA. In the evaluation of customers, the Parent Bank uses the "internal rating system" developed within the Parent Bank and which takes into account the behavioral characteristics of the customers as well as their financial data. In accordance with the rules determined in the "Credit Allocation and Credit Monitoring Procedure", the Bank regularly monitors the credit worthiness of all credit customers in the portfolio and prepares action plans accordingly.

The Parent Bank has no overdue or closely monitored loans.

As of 31 December 2024, the Parent Bank has 24 cash loans from its customers amounting to TL 12.132.895 and 71 non-cash loans from its customers amounting to TL 4.881.604. The Parent Bank's largest 100 and 200 cash and non-cash loan customers compose 100% and 100%, respectively of the total cash and non-cash loan portfolio under balance sheet and off-balance sheet items.

III. Explanations on currency risk

The difference between the Bank's foreign currency denominated and foreign currency indexed assets and liabilities is defined as the "Net Foreign Currency Position" and is the basis of currency risk.

Foreign currency risk indicates the probability of loss that banks are subject to due to the exchange rate movements in the market.

Currency risks are calculated on monthly basis in the risk table within the scope of the Standard Method and the results are reported to the relevant official bodies and the Bank management. Currency risk is considered in the calculation of the Capital Adequacy Ratio as a part of the market risk.

Currency risk is managed and monitored in accordance with all legal regulations and risk limits and early warning limits determined by the Board of Directors as a component of market risk.

The Parent Bank's publicly announced foreign exchange bid rates for USD and EUR as of the date of the financial statements denominated in Turkish Lira ("TL") and for the last five working days prior to that date are as follows:

(The exchange rates indicated below are presented in TL 1.)

	USD	EUR
Balance sheet evaluation rate (31 December 2024) (First day current bid rate)	35.2803	36.7362
31 December 2024	35.2803	36.7362
30 December 2024	35.1368	36.6134
27 December 2024	35.2033	36.6076
26 December 2024	35.2162	36.6592
25 December 2024	35.1814	36.5693

The simple arithmetic average of the Parent Bank's current foreign exchange bid rate denominated in USD and EUR (Last 30 days) is as follows:

USD 1	34.9254	33.9660
EUR 1	36.5796	37.7456

IV. Explanations on interest rate risk

"Interest Rate Risk" can be defined as the impact of interest rate changes on interest-sensitive asset and liability items of both on and off-balance sheets and represents as the loss for the Parent Bank.

Interest sensitivity regarding the asset and liability items included in the balance sheet and off-balance sheet items is measured and evaluated by the Asset-Liability Committee ("ALCO").

The Parent Bank has monitored the matters such as measurement, analysis and reporting regarding the management of interest rate risk with relevant procedures.

The influence of the interest rate risk in the current period on net income and equity was immaterial.

Disclosures on interest rate risks arising from banking book and accounts

Repricing term mismatch and duration mismatch analyses, net economic value change analyses under different interest rate stress scenarios and income simulations are used for interest rate risk management. The interest rate risk arising from banking book of the Parent Bank is calculated and reported according to "Regulation on Measurement and Evaluation of Interest Rate Risk in Banking Account" with "Standard Shock Method" published in the Official Gazette numbered 28034 on 23 August 2011. The Parent Bank's calculation of the interest rate risk derived from banking books is presented below:

Current period- Currency	Shocks applied (+/- x basis points) ⁽¹⁾	Gains/Losses	Gains/Equity - Losses/ Equity
1 TL	500	(124.710)	(4.5%)
	(400)	109.115	3.96%
2 EUR	200	(3.974)	(0.15%)
	(200)	4.092	0.15%
3 USD	200	128.343	4.66%
	(200)	(125.222)	(4.54%)
Total (of negative shocks)	-	(12.015)	(0.44%)
Total (of positive shocks)	-	(341)	(0.01%)

⁽¹⁾ Separate lines as items are used for each shock of different intensity and direction applied to a currency.

Prior period- Currency	Shocks applied (+/- x basis points) ⁽¹⁾	Gains/Losses	Gains/Equity - Losses/ Equity
1 TL	500	(71.227)	(5.25%)
	(400)	66.057	4.87%
2 EUR	200	-	-
	(200)	-	-
3 USD	200	4.338	8.32%
	(200)	6.486	9.48%
Total (of negative shocks)	-	72.543	5.35%
Total (of positive shocks)	-	(66.889)	(4.93%)

⁽¹⁾ Separate lines as items are used for each shock of different intensity and direction applied to a currency.

DESTEK YATIRIM BANKASI ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT AND FOR THE YEAR
ENDED 31 DECEMBER 2024

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

**INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE
PARENT BANK (continued)**

V. Explanations on position risk of equity securities

None.

VI. Explanations on liquidity risk management and liquidity coverage ratio

- a) **Explanations on the Parent Bank related to the liquidity risk management including the Parent Bank's risk capacity, responsibilities and structure of liquidity risk management, reporting of liquidity risk in internal banking, the strategy of liquidity risk and how to provide the communication of policies and implementations with board of directors and business lines**

The Parent Bank's liquidity and funding policy is to own sufficient liquidity reserve and funding opportunities to meet Parent Bank's liabilities even in cases of stress, resulting from the market conditions or other conditions specific to the Parent Bank. The Parent Bank has capacity to meet a high risk with broad and stable deposit, strong base capital structure and diversified foreign borrowing sources and is capable of providing additional liquidity with high quality liquid securities in its portfolio and available limits at both the Central Bank of Türkiye and other money markets. Management of liquidity risk is shared by the ERC, ALCO, Treasury Department and Risk Management Department. The ERC determines the liquidity management policies and the appropriate liquidity risk level in line with the Parent Bank's risk appetite and monitors whether the liquidity risk is managed under the framework of determined policies and within the defined limits. The Parent Bank's liquidity is discussed at weekly ALCO meetings and reported to the Board of Directors through monthly risk assessment reports. Excesses are monitored by the Risk Management Department through the liquidity risk appetite, limit and early warning values determined by the Bank's Board of Directors, and necessary notifications are made to the relevant management levels.

In accordance with the fifth paragraph of Article 4 of the Regulation on Banks' Liquidity Coverage Ratio, it has been decided to apply the consolidated and consolidated total and foreign currency liquidity coverage ratios for development and investment banks as zero percent until the contrary is determined by the BRSA, and in this context, compliance with the legal ratio is not determined accordingly.

- b) **Liquidity management and the degree of centralization of fund strategies, the information about the procedure between bank and the partners of Bank**

None.

- c) **Explanation related to policies regarding fund resources times variations of funding strategy of the Parent Bank**

Since the Parent Bank has considered as an "Investment bank", its funding sources are limited to non-deposits, and the Parent Bank's primary goal is to diversify its funding sources over time. Accordingly, both expanding the investor base and diversifying the borrowing markets have been determined as priorities. The Parent Bank's funding source consists of loans from other financial institutions and borrowings from the interbank money market. In particular, relatively long-term funding opportunities from foreign banks and borrowing opportunities from organized markets can also be used.

- d) **Explanation related to liquidity management as currencies forming at least 5 percentage of aggregate liabilities of the Parent Bank**

Liquidity management denominated in foreign currencies is ensured by harmonizing and diversifying the Parent Bank's domestic funding resources in terms of currency, passive cost and maturity of the resources under the management of the Treasury Department, and foreign funding opportunities in coordination with the Treasury Department and the Financial Institutions Group.

**INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE
PARENT BANK (continued)**

VI. Explanations on liquidity risk management and liquidity coverage ratio (continued)

e) Information related to the techniques about the reduction of current liquidity risk

In order to satisfy possible cash outflows, the Parent Bank will establish a liquidity buffer in accordance with its internal liquidity target and monitor the relevant data on a daily basis. In order to mitigate risk, it is required to diversify resources, adverse the possible concentration in payment dates, and observe asset-liability maturity and possible mismatch.

f) Explanation regarding stress test

Conducting measurement, monitoring, limitation, stress testing and scenario analysis are compatible with the structure and complexity of positions regarding liquidity risk management and reporting these operations to the Board of Directors is stipulated by the Risk Management Procedure.

g) General information on liquidity urgent and unexpected situation plan

In cases where there is a risk that the Parent Bank's liquid assets will decrease to a level where it cannot satisfy short-term liabilities and will make it difficult for the Bank to continue its operating activities and banking operations, in order to be prepared for a financial emergency in order to manage the liquidity matters it may encounter as much as possible and to protect the Parent Bank's assets and reputation. The necessary actions that can be implemented are determined by the Liquidity Emergency Action Plan ("LEAP") that are approved from Board of Directors.

h) Liquidity coverage ratio

In accordance with the "Regulation on Measurement and Evaluation of Liquidity Adequacy of Banks" entered into force after published on Official Gazette dated 1 November 2006 and numbered 26333 published by BRSA, starting from 1 June 2007, weekly simple average of total liquidity adequacy rates related to primary maturity segment and total liquidity adequacy rate related to secondary maturity segment cannot be less than 100% while weekly simple average of foreign currency liquidity ratio related to primary maturity segment and foreign currency adequacy rate related to secondary maturity segment cannot be less than 80%.

Liquidity coverage ratio is calculated by dividing high-quality liquid assets ("HQLA") to net cash outflows within a one-month maturity.

VIII. Explanations on presentation of financial assets and liabilities at their fair value

The fair values of financial assets measured at amortised cost are determined based on market prices or when this price is not available, based on market prices quoted for other securities subject to the same redemption qualifications in terms of interest, maturity and other similar conditions.

Bank accounts are recognised at amortised cost in the financial statements and it is estimated that their fair values approximate their carrying values due to their short-term nature. The discount rates used in the fair value calculation of the loans granted are the interest rates prevailing in the markets for the relevant loan type as of 31 December 2024.

The fair values of the borrower funds received from other financial institutions are assumed to approximate their carrying values due to their short-term nature. The discount rates used in the fair value calculation of funds obtained from other financial institutions are the interest rates prevailing in the markets for the type of loan used as of 31 December 2024. The fair values of other financial liabilities are assumed to approximate their carrying values due to their short-term nature.

The following table summarizes the carrying values and fair values of financial assets and liabilities.

	Carrying value		Fair value	
	Current period	Prior period	Current period	Prior period
Financial assets				
Cash and cash equivalents and the CBRT	570.039	332.437	570.039	332.437

VIII. Explanations on presentation of financial assets and liabilities at their fair value (continued)

Fair value hierarchy

TFRS 13 sets a hierarchy of valuation techniques according to the observability of data used in valuation techniques which establish basis for fair value calculations.

The fair value hierarchy is determined as follows:

- Quoted market prices (non-adjusted) (Level 1)
- Directly (by way of prices) or indirectly (derived from prices) data for the assets or liabilities, other than quoted prices in the 1st level (Level 2)
- Data not based on observable data regarding assets or liabilities (Level 3).

31 December 2024	Level 1	Level 2	Level 3	Total
Financial assets				
Financial assets at fair value through other comprehensive income	1.158.058	-	-	1.158.058
Financial assets at fair value through profit or loss	-	-	-	-
Derivative financial assets	-	289.903	-	289.903
Total	1.158.058	289.903	-	1.447.961

Financial liabilities

Issued securities	4.571.808	-	-	4.571.808
Derivative financial liabilities	-	45.242	-	45.242
Total	4.571.808	45.242	-	4.617.050

None.

X. Explanations on risk management

The notes and related explanations prepared in accordance with the "Communiqué Regarding Risk Management by Banks" published in the Official Gazette numbered 29511 on 23 October 2015 are as follows:

a) Risk management approach and weighted risk amounts

1. The Parent Bank's Risk Management Approach

The Parent Bank's risk management approach includes establishing a healthy risk management system, including human resources, information technology infrastructure, risk assessment models, regulations, procedures, application instructions and reports, and fulfilling all requirements for its operation, creating an integrated risk management based on risk and return. Accordingly, the Bank ensures relevant policies, procedures and sets limits, and risk management activities are established and defined in accordance with internal and external legislation. The Parent Bank has established the system and infrastructure for the measurement and management of the risks it is exposed to in accordance with its risk profile and operating environment. Duties, authorities and responsibilities within the scope of the risk management system are fulfilled and satisfied in accordance with the legislation and internal procedures.

The Board of Directors of the Parent Bank has sole responsibility to establish the risk management system and monitor its effectiveness. The Board of Directors realises its oversight responsibility through the Audit Committee and other relevant committees.

The operating activities of the Parent Bank should be carried out in a manner that does not exceed the internal and legal capital limits and the risk appetite limits determined by the Board of Directors. Risk governance model includes three lines of defense consisting of: The risk-taking units at the first level, responsible for assessing and minimizing risks for a given level of return (level 1). Risk Management Unit, at the second level, identifies, monitors, controls, quantifies risk, provides appropriate tools and methodologies, provides coordination and assistance; measures risk adjusted performance across the business lines; reports to appropriate levels and proposes mitigation measures, being supported by business lines, where the risk is actually created, and specialized units (level 2). Internal Audit – provides the independent review function (level 3).

"Risk appetite" is a high-level determination of how much risk a bank is willing to accept taking into account the risk/return attributes.

The Parent Bank applies audit and control mechanisms to determine that processes are carried out in accordance with the Parent Bank's policies and procedures, within the procedures and principles determined by the Board of Directors, and are reported in a correct manner to the key management personnel.

Operating activities implemented within internal systems are used as instruments to identify weaknesses in risk management processes, policies and procedures and to detect transactions that are contrary to the limits, policies and procedures. Thus, the "Internal Audit Department", "Internal Control Department" and "Risk Management Department", which operate directly under the Board of Directors, continue their activities in coordination with other departments and key management personnel.

In accordance with the risk management activities of the Parent Bank, the evaluations regarding risk management are realised on a monthly basis to identify, measure and manage risks and the results are submitted to the Board of Directors.

**INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE PARENT
BANK (continued)**

X. Explanations on risk management (continued)

d. Explanations on counterparty credit risk ("CCR")

1. Qualitative disclosures regarding counterparty credit risk

The counterparty credit risk is defined as the risk that the counterparty, which is the other party of a transaction that has obligations on both parties, will default before the final payment in the cash flow of the relevant transaction.

Counterparty credit risk arises when financing securities transactions such as over-the-counter derivative financial instruments and reverse repos. The Parent Bank monitors the counterparty credit risk considering the application of limits approved by the Board of Directors on an institution/organization basis.

Capital requirement is calculated for the counterparty credit risk arising from the transactions included in the accounts which are as follows:

- Over-the-counter derivative financial instruments and credit derivatives,
- Securities or commodity-based securities or commodity borrowings or lending transactions included in the portfolio, and repo and reverse repurchase agreements,
- Securities transactions on credit and transactions with long settlement periods.

Replenishment costs are measured and managed using yield curves whose current value reflects the market conditions.

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE PARENT
BANK (continued)

XI. Explanations on securitisation

None.

XII. Explanations on market risk

1. Qualitative disclosure requirements related to market risk

The Parent Bank is exposed to market risk as a result of fluctuations in foreign exchange rates, commodity risk, interest rates, and market prices of stocks. The risk is defined as the possibility of loss that the bank's on-balance sheet and off-balance sheet positions within the framework of financial risk management. The Bank aims to keep the foreign exchange position balanced and minimize liquidity and interest rate risks in order to hedge against risks that may occur in the markets. The amount subject to market risk is calculated on a monthly basis in accordance with the "Standard Method" and is included in the capital adequacy standard ratio calculation. The Board of Directors considers the necessary measures to maintain an effective internal control mechanism and risk management system within the Parent Bank and closely monitors the development of market risk.

The Bank's policies regarding market risk management are determined by Treasury and Risk Management. The Bank determines as its priority that the risks faced by the Parent Bank are within the limits required by the legislation and proportional to the Parent Bank's risk appetite. The Parent Bank's risk appetite is determined by the Board of Directors. The Parent Bank has internal "risk limits" determined according to its portfolio structure and risk appetite, and compliance with these limits is monitored by controllers determined according to the triple mechanism.

The market risk within the Bank is calculated within the framework of "Regulation on Banks' Equity" and "Regulation on Measurement and Evaluation of Capital Adequacy of Banks" under "Standard Method".

2. Market risk under standardised approach

	Current period	Prior period
	RWA	RWA
Outright products		
1 Interest rate risk (general and specific)	367.888	257.350
2 Equity risk (general and specific)	-	-
3 Foreign exchange risk	228.587	17.079
4 Commodity risk	-	-
Options		
5 Simplified approach	-	-
6 Delta-plus method	-	-
7 Scenario approach	-	-
8 Securitisation	-	-
Total	596.475	274.429

XIII. Explanations on operational risks

In accordance with the "Regulation on Measurement and Assessment of Capital Adequacy of Banks", the amount subject to operational risk is calculated using the "Basic Indicator Method". In the basic indicator method, the value to be found by multiplying the average of 15% of the Parent Bank's year-end gross income amounts realised for the last three years by 12.5 is taken into consideration as the amount subject to operational risk. Annual gross income consists of the sum of net interest income and net non-interest income realised as of year-end. If the annual gross income is negative or zero for the last three years, the amount subject to operational risk is not calculated. In 2024, the amount subject to operational risk in the capital adequacy ratio calculation has been amounting to TL 1,505,071 for the Parent Bank.

Total	2.798	469.815	4.210	327.201

1.3. Information related to the reserve requirement

The Bank established in Türkiye or operating in Türkiye by opening branches are subject to the "Communiqué Regarding Required Provisions numbered 2013/15" of the Central Bank of Türkiye. The amount to be calculated as a result of deducting the deductible items specified in the aforementioned communiqué from the total domestic liabilities of the banks and the deposits/borrower funds from Türkiye on behalf of their branches abroad constitute their liabilities subject to reserve requirements.

As of 31 December 2024 and 2023, the required reserve rates for liabilities denominated in TL is between 3% and 8% according to their maturities and the reserve rates for foreign currency denominated liabilities are between 5% and 26% for deposit and other foreign currency liabilities according to their maturities.

2. Information on financial assets at fair value through profit or loss given or blocked as collateral

None.

INFORMATION AND DISCLOSURES RELATED TO CONSOLIDATED FINANCIAL
STATEMENTS (continued)

II. Explanations and notes related to liabilities (continued)

5. If other liabilities account exceeds 10% of total assets excluding the commitments included in the off-balance sheet items, information given about components of other liabilities account that exceeds 20% of the individual liabilities item in the consolidated balance sheet

As of 31 December 2024 and 2023, other liabilities do not exceed 10% of total liabilities of the consolidated balance sheet excluding the off-balance sheet items.

In accordance with the BRSA Circular No. 24049440.010.06.02[5/1]-1 dated 2 February 2015, other liabilities include "transfer" account balances in foreign exchange buying/selling and transfer transactions whose transfer was not completed on 31 December 2024.

6. Information on lease liabilities (net)

In accordance with "TFRS 16 Leases" effective from 1 January 2019, the difference between operating leases and finance leases has been eliminated and the lease transactions have been disclosed under the "Lease liabilities" as liability by lessees. As of 31 December 2024, the breakdown of the leases and relevant transactions with lease agreement 1 year and over is as follows (31 December 2023: None):

	31 December 2024	31 December 2023
Up to 1 year	1.267	-
1-4 years	20.371	-
4 years and over	-	-
Total	21.638	-

7. Information on hedging derivative financial instruments

None.

8. Information on provisions

- 8.1 General loan provisions

In accordance with the authorisation on 21 February 2022 from BRSA, the Parent Bank calculates its general loan provisions within the scope of the 10th, 11th, 13th and 15th articles of the regulation, not with the expected credit losses under TFRS 9. As of 31 December 2024, the Parent Bank calculated general loan provisions amounting to TL 255.527 for its first group loans and receivables (31 December 2023: TL 68.774).

- 8.2. Provision for currency exchange gains/(losses) on foreign currency indexed loans and finance lease receivables

None.

- 8.3. Information on provision for employee rights

According to Turkish Labor Law, the Parent Bank is required to pay termination benefits to each employee who has completed at least one year of service and whose employment is terminated without due cause, is called up for military service, dies or who retires. The compensation amount equals to one month's salary of an employee for each year of service, but this amount is limited up to employment termination limit decided by law. The reserve has been calculated by estimating the present value of the future probable obligation of the Bank arising from the retirement of its employees. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

	31 December 2024	31 December 2023
Net discount rate	3.31%	1.56%
Annual inflation rate	21%	28%
Annual effective interest rate	25%	30%

STATEMENTS (continued)

IV. Explanations and notes related to the statement of profit or loss (continued)

10. Information and explanations on operating profit/(loss) from continuing and discontinued operations

As of 31 December 2024, the Parent Bank has profit before tax from continuing operations amounting to TL 1.740.682 (31 December 2023: TL 1.350.037). The Parent Bank has current period tax expense from continuing operations amounting to TL 564.274 (31 December 2023: TL 415.661). As of 31 December 2024, profit for the period amounting to TL 1.176.408 (31 December 2023: TL 934.376).

11. Information profit/loss for the period

11.1. Explanation on the quality, amount and frequency of the figures of the income and expense stemming from ordinary banking operations, if necessary to understand the performance of the Parent Bank for the current period

None.

11.2. Explanations on the changes in the estimations regarding the figures on the consolidated financial statements, if there is a possibility that the profit and loss for the current or the following periods will be impacted

None.

12. If Other Items in the Profit or Loss Statement Exceed 10% of the Profit or Loss Statement Total, Sub-Accounts Constituting At Least 20% of These Items

Other items included in the consolidated statement of profit or loss do not exceed 10% of total amount of consolidated statement of profit or loss.

V. Explanations and notes related to statement of changes in equity

The legal reserves are appropriated in accordance with the Turkish Commercial Code ("TCC") as the first and second reserves. The first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Parent Bank's paid-in share capital. The second legal reserve is appropriated at the rate of 10% per cent of all cash distributions in excess of 5% of the paid-in share capital. In accordance with the decision of the General Assembly on 30 March 2024, the amount of TL 46.718 of retained earnings amounting to TL 934.375 has been transferred to legal reserves and TL 887.657 to retained earnings. As of the date of the consolidated financial statements, the Parent Bank's Annual Ordinary General Assembly Meeting has not been held yet. As of 31 December 2024, profit reserves amounting to TL 51.259 (31 December 2023: TL 4.541) consists of the amount transferred from retained earnings in the current period. The Parent Bank has recognised actuarial difference amounting to TL (550) arising from changes in actuarial assumptions used in the calculation of provision for employment termination benefits under consolidated total comprehensive income (31 December 2023: TL (273)).
